SPECIALIST TESTS AVAILABLE – 2010/11

The cost of each test covers:

- Test paper, which can be copied for candidates
- Blank answer grid, which can be copied for candidates
- Marking grid
- Answer paper with answers in bold type

Most tests are also accompanied by a bullet point syllabus. We supply tests by email, in the form of Word files. If you prefer, we can send hard copy by post at an additional cost of £20 plus VAT per test.

Various test subjects are available as listed below. We add to the range from time to time, so please ask if we do not have an appropriate test for you within the current range. For most subjects, there are a number of tests available, which means that retest papers are readily available if required, at the same cost. Costs are shown exclusive of VAT, which will be added at the current rate. The 'small firms' rate applies to firms with up to 10 advisers; otherwise the 'larger firms' rate applies.
